

## WASHLINE: DEFYING EXPECTATIONS

All participants

15 min

Ask participants to write their expectations towards

- 1) the programme of the course,
- 2) to the team and
- 3) to rest of the group

Participants use one particular color paper (post it or other sticky papers, minimum 3 for each person per topic. You can ask the participants to do this anonymously or with their names written on it. When people are ready, they can stick it on the wash line drawn on a FC paper (each color goes on one line).

After this either participants can comment verbally the expectations or a member of the trainers' team could make a short summary of the expectations (and hopefully link it into the course programme).

This exercise is about getting to know expectations on the first programme day and making them visible to everybody else. It will help you streamline the module, and avoid unwanted scenarios.
