

## TASK: MY ENTREPRENEURIAL COMPETENCES

Individual work, plenum discussion

33 minutes (18+15)

The assistant trainer submits to each participant one handout **HO-2**. The lead trainer instructs the participants to analyze the list of knowledge, skills and attitudes displayed on the handout in the next 18 minutes, and in one way (for example, putting the +) mark those items they consider to have, and otherwise (for example, -) mark those items that they do not own. Then they need to consider why they do not possess these items, and how they could provide for them (acquire, develop, adopt, buy) - through training, family or friends help, engaging an outside service provider, or otherwise.

After the completion of individual work, the lead trainer will facilitate the discussion in the plenum in the next 15 minutes. Some of the questions they can ask are:

- *How did you assess your level of competence? How much are you, by your own judgment, near or far from highly competent entrepreneurs?*
- *Which competencies do you miss?*
- *Can you enter private business without these competencies?*
- *How do you think to obtain them, do you have an idea?*
- *How much time do you think you will need to acquire all these competencies? Is there an alternative quicker way to obtain these competencies?*

Through this task participants will consider which entrepreneurial competences they possess, and which knowledge, skills and attitudes that are in need of, and how they can develop, acquire or adopt them.

HO-2
