

# TASK: WRAP UP OF THE DAY

1 (or more) volunteers

5 - 10 minutes

The lead trainer calls for a volunteer to make a recapitulation of the day by remind participants about the topics covered during the day. If there are no volunteers, trainer should suggest to shortly list out covered topics, session by session, and each session to be tackled by different person. Start with "in the opening session we did - what? Who could tell us that? .....Thank you, OK, now let's see what we talked about in the second session? Who would remind us of what we were talking about in the second session?" If there are no volunteers even for this form of recapitulation, then the trainer should wrap up him(her)self.

The task to repeat and remind of the content covered so far.
