

TASK: MY DREAM JOB

Work in pairs

15 minutes

The assistant trainer already shared handout **HO-1** to participants, and placed on the wall 2 FC papers. The lead trainer divides participants in pairs and gives instruction that in the next 7 minutes the participants consider the job they are dreaming about, why is that their dream job, and to tell this to their pair, who then should take the handout **HO-1**, and draw the face and business style that best illustrates the person who dreams of this job. Below the drawing, (s)he should write what the job is and why exactly this person dreams of that job.

After 7 minutes, presentation begins. Participants should get onto the floor in pairs. The pair persons introduce each other to the audience by stating the name of the person and some brief information from a biography (profession, education, place of living, etc.) and what is his/her dream job and why. While giving this introduction, (s)he should be showing the drawing. Each participant has a max. of 30 seconds to make introduction, i.e. 1 minute per pair is allocated. After introduction of each pair, the assistant trainer should take the drawings and paste them on the FC paper on the wall provided for it.

An introductory task through which the participants will present each other and get to know each other better.

HO-1

FC paper, crepe tape
